## Professional Summary

Hands-on **Software Developer / Full Stack Developer / React.js Developer** with strong practical experience building **real-world web applications, Android apps, admin dashboards, and role-based portals**. Experienced in end-to-end development including UI/UX design, backend integration, authentication, payments, deployment, and APK delivery. Focused on clean architecture, modular components, performance, and production-ready systems.

## Technical Skills

**Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js (Hooks, Component Architecture, State Management)

**Mobile Development:** Flutter (Android APKs), WebView-based applications

**Backend & Cloud:** Firebase (Authentication, Firestore, Storage), REST API integration

**Web Portals & Dashboards:** Admin panels, lawyer portals, role-based access control

**Payments & Integrations:** Payment gateway integration, third-party APIs

**Tools:** Git, GitHub, VS Code, Android Studio

**Other:** Offline-first apps, Excel/data export, deployment-ready builds

## Projects (Real-World Applications)

### Legal Service Platform – User App, Lawyer Web Portal, Admin Dashboard

- Developed a complete legal services system including a mobile app for users, a web portal for lawyers, and an admin dashboard.
- Built a custom **lawyer portal** for profile management, case responses, availability, and service tracking.
- Designed an **admin web dashboard** for lawyer verification, user management, and system monitoring.
- Tech stack: React.js, Flutter, Firebase (Auth, Firestore), REST APIs.

### Patient Record Management App

- Built an offline-first medical record management application for clinics and individual practitioners.
- Implemented Firebase sync, structured patient data storage, and Excel export functionality.

### Custom Web Admin Portals

- Designed and developed secure, role-based admin dashboards for internal business operations.
- Implemented authentication, authorization, CRUD operations, and real-time database updates.
- Built responsive and maintainable UI using React.js with focus on usability and performance.

## Experience

### Independent / Project-Based Developer

Jalgaon, India

- Delivered multiple end-to-end software solutions including mobile apps, web platforms, and admin portals.
- Handled full development lifecycle: requirement analysis, UI/UX design, development, testing, and deployment.
- Provided clients with complete source code, APKs, and technical documentation.
- Maintained focus on clean code practices, scalability, and long-term maintainability.

## Achievements & Activities

- Participant and Team Lead at Smart India Hackathon (SIH) – collaborated on real-world problem statements under time constraints.

## Education

### Bachelor of Computer Engineering

2023 – 2027 (Currently in 6<sup>th</sup> Semester)

SSBT's College of Engineering & Technology (COET), Bambhori, Jalgaon, India

### Higher Secondary Certificate (12th)

2022 – 2023

Adarsh College of Arts & Science, Hatti, Sambhajinagar, India

Score: 73.33%

### Secondary School Certificate (10th)

2020 – 2021

ILMV Higher Secondary School, Jamner, Jalgaon, India

Score: 80.60%

## Soft Skills

Problem Solving — Fast Learner — Time Management — Communication & Client Handling — Team Collaboration — Leadership
